

Name: Anil Yadav

Summary:

Anil Yadav is a Blockchain Developer with 3+ years of experience building smart contracts and decentralized applications (DApps) using Ethereum and Solidity. He is passionate about decentralized finance and NFT ecosystems.

Key Skills:

Solidity, Web3.js

Ethereum, Ganache, Truffle

Smart Contract Development

IPFS & MetaMask Integration

DApp Frontends

Token Standards (ERC20, ERC721)

Blockchain Security

Gas Optimization

Certifications:

Certified Ethereum Developer – B9Lab

Blockchain Specialization – Coursera

Solidity Bootcamp – Dapp University

Education:

BE in Information Technology, Blockchain Institute of India, 2016–2020
